

SUDAMA HEALTH

**Nurse-led telemedicine
clinics providing access to
affordable and quality
primary healthcare for
everyone.**

2 clinics live.

4000+ patients served.

Bengaluru Rural.

Why is healthcare access broken outside cities?

Shortage of qualified doctors.

Lack of reliable healthcare infrastructure.

Financial burden and long-distance travel.

How nurse-led telemedicine clinics fixes it?

Remote doctor over video.

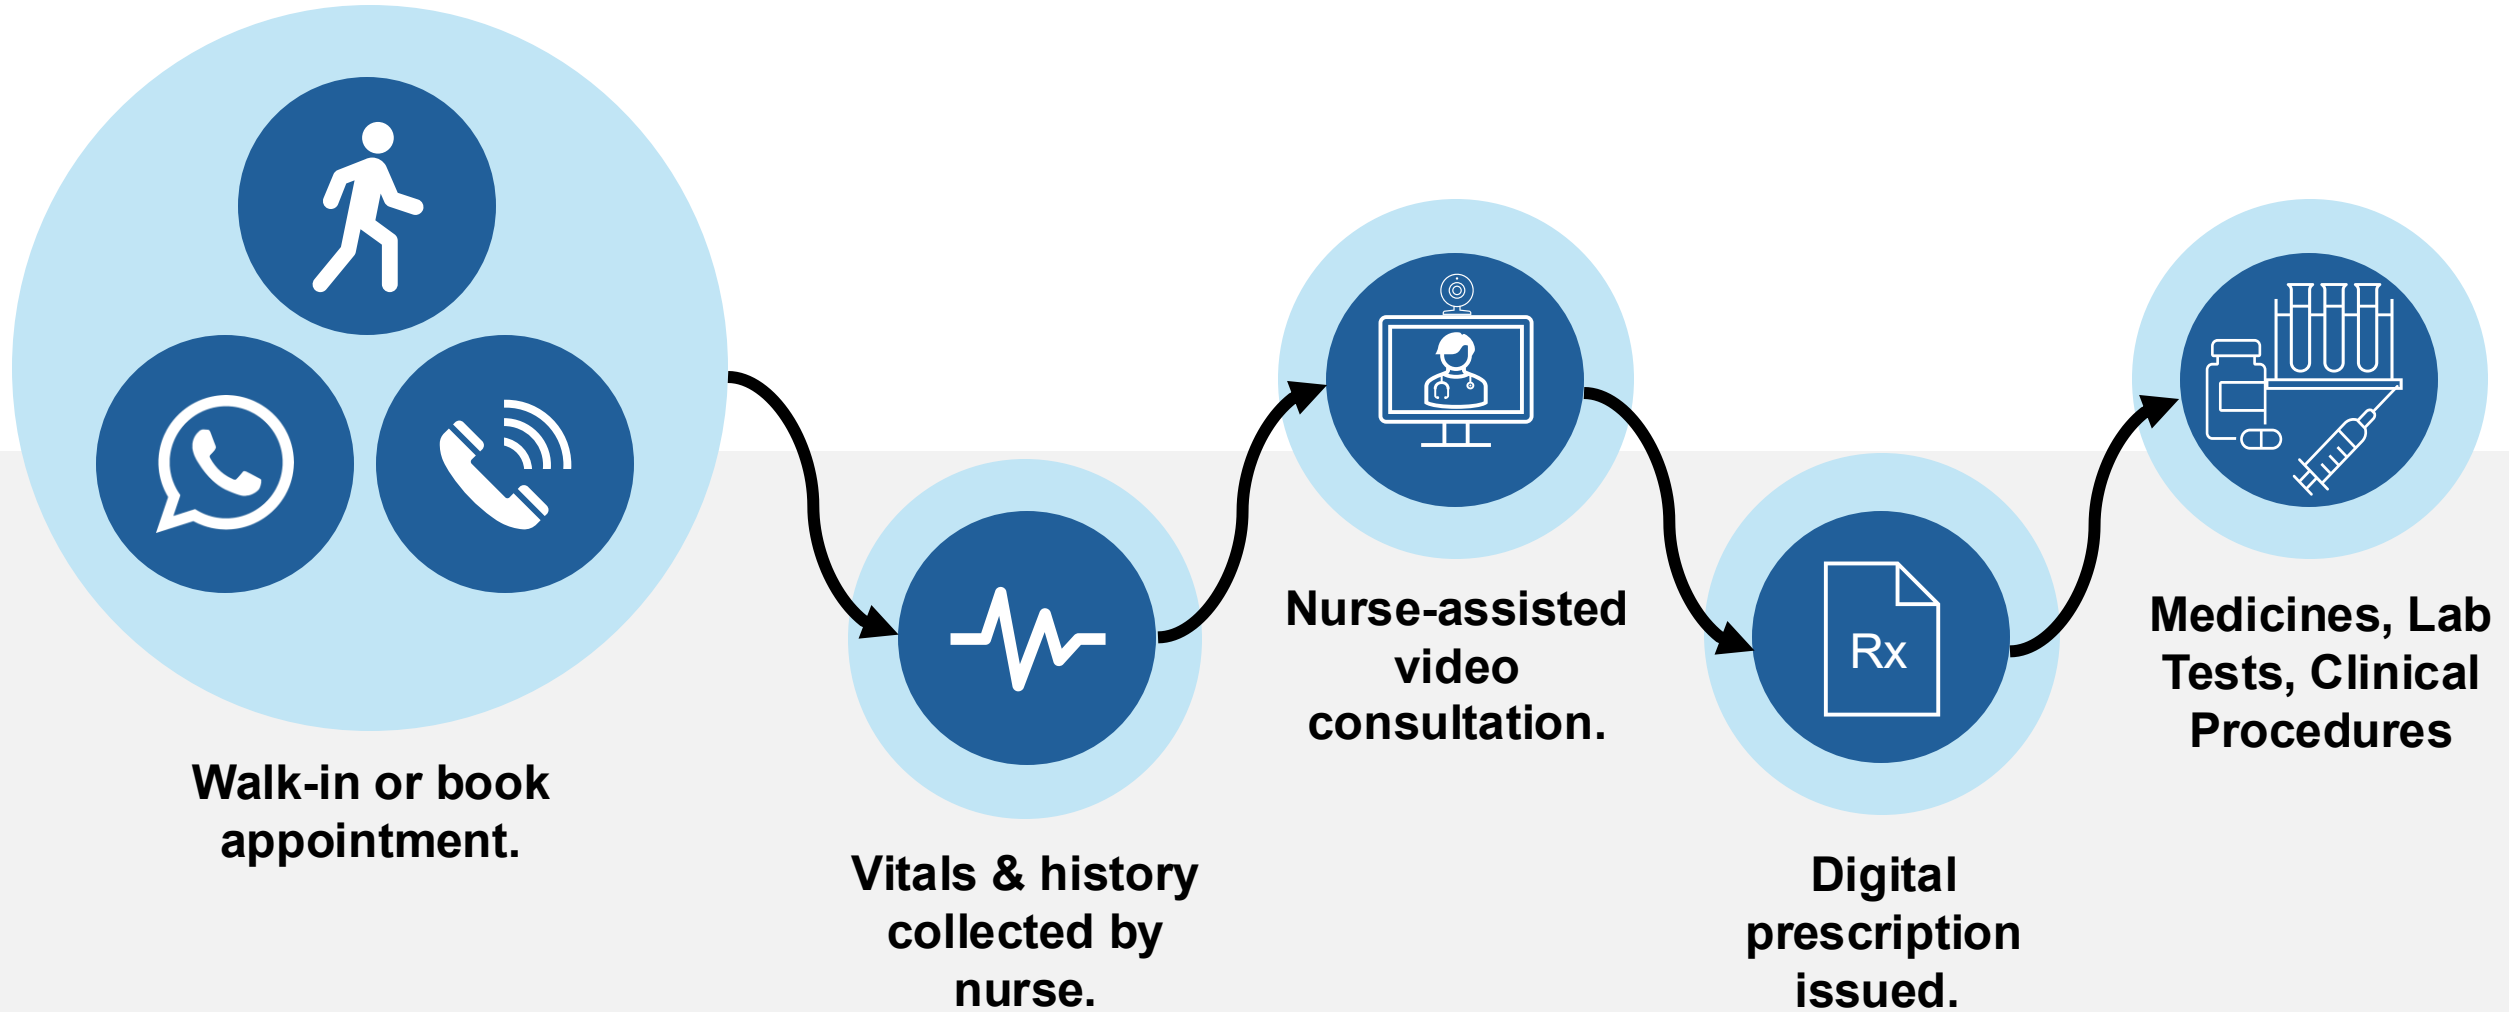

On-site nurses with connected diagnostic equipment.

Affordable care, lab tests and medicines on-site.

How it works?

Current Traction

2 operational clinics in rural Bengaluru.

4000+ patients served.

Repeat visits, regular follow ups, strong word of mouth referrals.

Standardized digital workflows to ease clerical workload.

On-site nurse performs remote auscultation with digital stethoscope on an actual patient.

Interested in backing the next generation of primary care delivery in India?

Happy to share details in a 20-minute call.
